Pond A - \$2,623,000 Project Costs

A proposed new detention pond located northwest and adjacent to SH 21 (Camino Real), between Poco Loco Supermercado and St. John Lutheran Church. The proposed detention pond is located at a natural low point and collects approximately 191 acres of contributing drainage area. The peak stormwater flow through this location will be reduced by the proposed pond and water from the pond continues to flow through an existing culvert under TxDOT SH 21, flowing through the downtown area and finally discharging into Plum Creek.

Old Spanish Trail Bridge - \$1,864,500 Project Costs

A proposed new bridge for Old Spanish Trail, as it crosses over Plum Creek will be at a relative height similar to the bridge upstream of Plum Creek for SH 21, raising the driving pavement higher than the existing box culverts which will be removed. The proposed bridge will be designed to prevent obstruction of Plum Creek.

Plum Creek - \$1,509,000 Project Costs

Upstream and downstream of Old Spanish Trail at the proposed bridge, Plum Creek is proposed to be widened, and trees and brush removed to enhance the capacity of Plum Creek to convey stormwater. The proposed improvements will reduce flood waters backed up into the City.

East Drainage / Seeliger Drive - \$2,250,500 Project Costs

Proposed channel improvements will connect the discharge point of the existing TxDOT culvert located approximately 750 feet northeast of Short Street at its intersection with SH 21, to Plum Creek. The proposed channel improvements will approximately follow the existing natural drainage path, intercept flood waters prior to reaching the residences on Seeliger Drive, and direct the storm water toward a new culvert and low water crossing for Seeliger Drive. In addition, Seeliger Drive is proposed to be lowered and repaved to facilitate drainage toward the new channel away from the residences and Old Spanish Trail.

Middle Drainage Channel - \$939,500 Project Costs

Proposed channel improvements between SH 21 and Old Spanish Trail will enhance the drainage capacity between these two roadways and remove trees and brush. After the stormwater flows under Old Spanish Trail toward the southwest, the existing channel will be improved that connects to Plum Creek.

Summer Sun Cove / Channel - \$2,531,500 Project Costs

Proposed channel improvements will intercept stormwater uphill of residences of Summer Sun Cove, and convey to the southwest. New proposed box culverts will be installed across Cotton Gin Road, and the channel improvements will continue to the southwest to connect to Plum Creek.

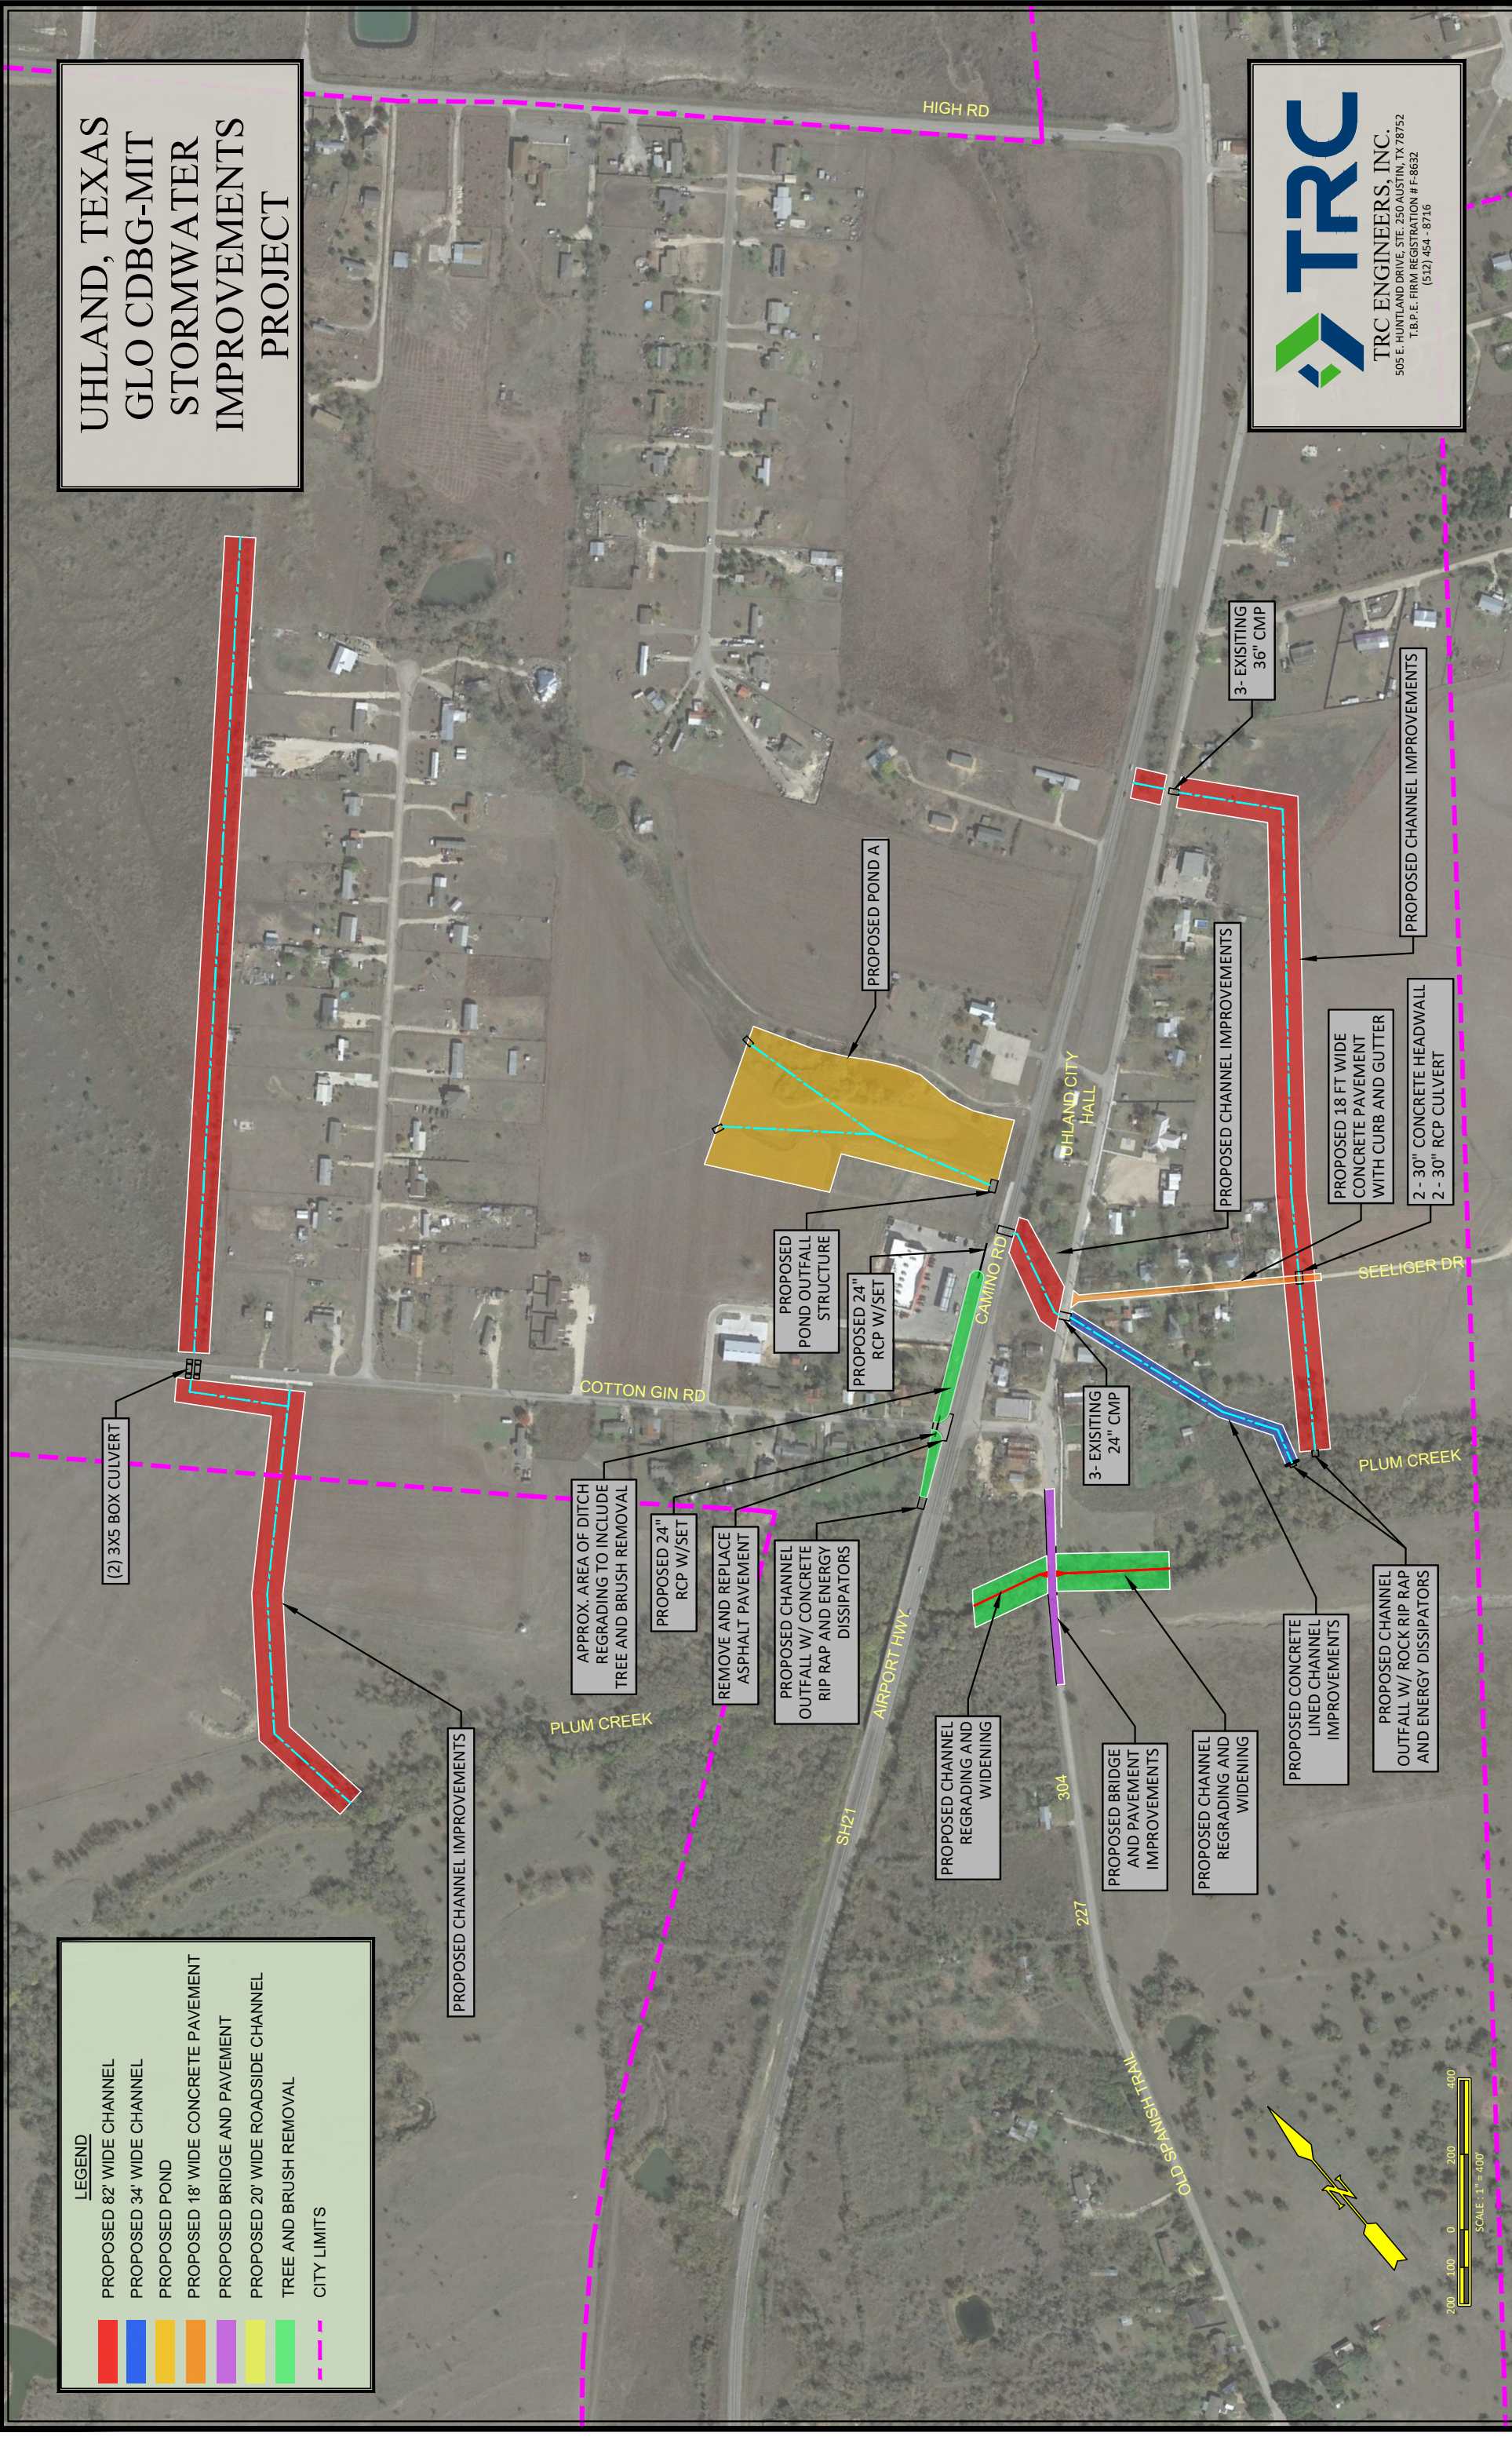

Camino Roadside - \$210,000 Project Costs

Proposed roadside drainage improvements southwest of the proposed Pond A consist of a larger driveway culvert for Poco Loco Supermercado, enhanced roadside drainage swale, larger culvert at Cotton Gin Road, and outfalling into Plum Creek along the north side of SH 21.

RE: S. Old Spanish Trail Drainage Improvements Project

Dear Ms. Gallaher,

Bids were received and opened on August 21, 2020 at 2:00 p.m. Four (4) bids were received and the results are shown on the attached Bid Tabulation Summary. The low bidder on the project is Myers Concrete Construction, LP. with a total bid of \$149,737.85.

I have reviewed the Contractor's bid documents and, to the best of my knowledge and belief, Myers Concrete Construction, LP. had the lowest and best qualified bid. It is my recommendation that the City of Uhland award the construction contract for the S. Old Spanish Trail Drainage Improvements Project to Myers Concrete Construction, LP. for the total bid amount of \$149,737.85.

If you have any questions or need additional information, please feel free to give me a call.

Sincerely,
LNV, LLC.
